

Rove Concepts

Diane Form Sleeper Sofa

Diane transforms from sofa to sleeper in one fluid motion. Engineered for both sitting and sleeping, the cushioning combines distinct foam densities for each use, with a 2 cm of cooling memory foam on both the seat and the sleeper surface.

A softly illuminated storage compartment behind the seat keeps bedding close at hand. USB A and USB C charging are integrated directly into the frame, while a warm 3000K nightlight creates subtle ambient light when Diane is in sleeper mode.

Finished throughout in Weathered Oak veneer.

Details

- Sofa and integrated sleeper mechanism
- Sleeping surface
- Dried pine wood frame with plywood and MDF
- Wood frame with elastic webbing support (no springs)
- Frame soft-padded with polyurethane foam
